New collections – March 2018

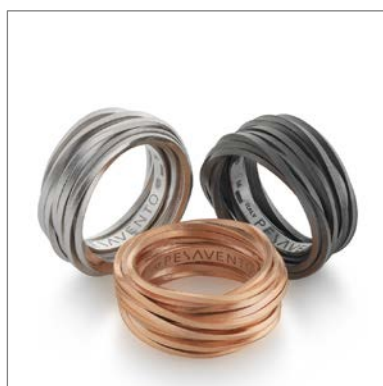

The Pesavento creations come from the magic sparked by meeting people and the enchantment of my travels applied to the testing of shapes, materials, colours, then followed by the design.

PIXEL Square texture

The much-loved PIXEL collection revives with a new texture. The inspiration starts from the square shape that becomes more and more minimal, a pure 'square texture'. It is design and poetry.

GEO

The strength of GEO is written in the name. Geo is a comeback to the origins of Pesavento. It is the call of Mother Earth, of life and the force of the elements with its sanded finish and the modern feel. Every jewel is unique and unrepeatable.

DNA VERVE Diamanti

The pure light of the diamonds encloses the DNA Verve thread in a perfect circle.
Creative magic turns into a delicate collection with a strong and lively heart.
