POLVERE DI SOGNI Intreccio

The bracelet with designer profile is interwoven like a precious fabric. It creates an elegant and intricate pattern that captures and reflects light with countless threads of chiaroscuro. Polvere di Sogni inserts communicate through contrast: it's the play of opposites.

POLVERE DI SOGNI Cube

A sinuous thread caresses the skin. It is a pure and elegant sign. The eye is drawn to a line of tiny cubes with gleaming faces which a sudden gesture can turn into many flashes of light.
