

News - September 2019 COLLECTIONS IN 18K GOLD

Pesavento is once again creating designs in gold.
This marks a return to our origins, with the added benefit of the unique, unmistakable style that Pesavento has developed over the years.

Our new Diamond Dust gives a special lustre to these stylish, sinuous lines in 18K gold, creating a sparkle that adds extra light to the gorgeous design of the Pesavento COCKTAIL and BASIC collections.

The LOVE collection is a delightful new surprise, designed to celebrate the beauty of love in a sustainable and responsible way.

18K Gold Collection COCKTAIL

Like the brilliant, shining bubbles of Champagne, our Cocktail collection is an invitation to pure joy. The essential shapes in 18-karat gold are brushed with sparkling Diamond Dust and combined with golden threads in various lengths to create sinuous necklaces and bracelets.

18K Gold Collection BASIC

The Basic collection sees a return to some of Pesavento's first designs. The light shimmers on the sinuous lines, with occasional interludes of Diamond Dust. The minimalist, essential look is evident in the design of these stylish necklaces.

18K Gold Collection LOVE

Designed to celebrate the precious gift of love, our Love collection is a tribute to elegance and minimalist style. These rings with their clean lines and beautiful proportions are the essence of fine, contemporary design.

The collection follows the dictum that "less is more", and speaks of a love based on caring and sustainable choices.

In keeping with the real concerns of the Millennial generation, Pesavento decided to only use Created Diamonds: diamonds 'cultivated' in the laboratory but with similar purity and brilliance to any extracted from a mine, and so offering the added bonus of an ethical, responsible choice.
