Silver Collection
STONES & DNA SPRING

Understated elegance. The soft natural shapes recall precious treasures discovered on the sea shore. Suspended on a Dna Spring wire, the bright nuggets coated with Polvere di Sogni dust frame the neck line with sudden plays of light. And they shine on simple ring bands with an evergreen elegance.

NEW FOR JANUARY 2020

Silver Collection POLVERE DI SOGNI

The design is elevated to new limits with absolute shapes. Inspired by the Zen circle, symbol of light, the infinite and the universe.

Earrings and rings featuring a circular theme, with variations in shape and size. Circles, ovals and ellipses all have the charm of perfect geometry, which here is broken by the contrasting plays of light of the Polvere di Sogni dust.

POLVERE DI SOGNI

The light, ever-changing and moving square hollow sections create small arcs. The alternation with elements coated with Polvere di Sogni dust brings elegance to the design, which takes shape in the soft bracelets. The Polvere di Sogni dust also features in the wrap-around rings. It's the language of design.

POLVERE DI SOGNI RINGS

The latest silver rings look to the future. They feature soft wrap-around shapes and the perfect design proportions. They bring a sinuous elegance around the finger, and fill with the light of the magic sparkle of the Polvere di Sogni dust.
