GIALLO MONDO

Spectacular, magnificent, exciting: yellow is a feast for the eyes and the heart.

The color of yellow gold, an icon in the jewelry world, is making a triumphant return. It's wonderful to see it in all the Pesavento collections, adding a bright twist to the season's wardrobe.

In the photos: Giallo Mondo rings, necklace, bracelet and earrings in 925 silver, with yellow electroplating in 23K gold and Polvere di Sogni in yellow.

POLVERE DI SOGNI

With its extraordinary plays of light and color that make reflections dance in the air, the Polvere di Sogni collection confirms its success season after season. Its special magic comes from a use of processes unique within the jewelry sector. The powder is formed from natural particles in a variety of colors, made to adhere to the silver using a special technology. The precision cutting into micro-hexagons enhances the sparkling effect and adds amazing brightness.

In the photos: Polvere di Sogni rings, bracelet and earrings in 925 silver with pink electroplating in 18K gold and Polvere di Sogni in black and bronze.

DNA SATURNO

Your imagination catches fire, moved by the amazing beauty of DNA Saturno. The collection is an extraordinary feat of workmanship, inspired by the orbits of planets and satellites; a sinuous DNA Spring thread is adorned with satin-finished spheres in various sizes, bright and velvety, almost like silk to the touch. The tactile contrast creates a unique sensation, and gives the pieces a sophisticated, contemporary look, with many different interpretations.

In the photos: DNA Saturno necklaces, bracelets and earrings in 925 silver with yellow electroplating in 23K gold, decorated with satin-finish spheres in various sizes.

DNA SPRING

An exquisite thread caresses the skin, like a tender embrace. It envelops it softly, tracing beautiful rings of light. The collection is based on a single element: silver thread.

The thread is artfully worked and made supple, giving the collection an innovative design and an almost futuristic look, with reflections that are even brighter and more sparkling.

In the photos: DNA Spring ring, necklaces and bracelet in 925 silver, with yellow electroplating in 23K gold, pink in 18K gold, and white in rhodium and palladium.

PIXEL

Pixel, the collection that has delighted women with its bright, hypnotic texture, is back in all its brilliance with the much-loved rhodium, pink and yellow finishes. The three shades are an invitation to play with different layers, creating many novel combinations. Pixel's iconic charm is a tribute to today's vivacious femininity, an invitation to celebrate your own unique personality.

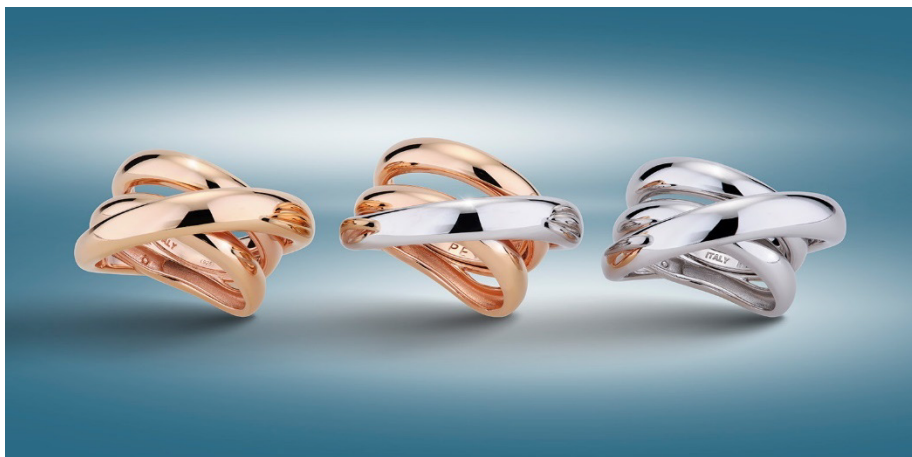

In the photos: Pixel earrings, rings and bracelet in 925 silver, with yellow electroplating in 23K gold, pink in 18K gold, and white in rhodium and palladium.
